Style 07-031 Packing

Graphite Yarn Encapsulated in Inconel Filament

Description

Lewco Style 07-031 Packing combines pure graphite yarn encapsulated with multiple Inconel wire. It has a very low chloride content and excellent for high temperature/high pressure valve applications. Lewco Style 031 can be used in valves and some rotary applications, soot blowers and high temperature valves. **It is not suitable for strong oxidizers.**

It is suitable for a wide range of service uses such as: hot water, high temperature and pressure steam, heat transfer fluid, hydrogen gas, ammonia, solvents, hydrocarbons, cryogenic liquids, etc.

Application Data:

	Rotary	Reciprocating	Valve
Pressure: PSI	N/A	N/A	5000
Speed: FPS	N/A	N/A	4.9
pH Range	0-14		
Temp. °F	-301 to +1000 in oxidizing service -301 to +1200 in steam service
