Style 07-042B Packing

High Carbon w/ PTFE/Graphite

Description

Lewco Style 07-042 Packing is braided from high carbon fibers that have been treated with graphite particles and then diagonally braided. Lewco 07-042 has low coefficients of friction which reduces drag and wear on shafts.

Extremely wide range of service uses such as: steam water, petroleum, oils, acids and many other solutions.

Application Data:

	Rotary	Reciprocating	Valve
Pressure: PSI			
Speed: FPS			
pH Range			
Temp. °F
